Allowable Subject Matter

1. Claims 38 – 68 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a method of determining feedback in a communication system, wherein data is transmitted from a transmitter to a receiver and in response to data reception at the receiver, a feedback is generated based on the received data for back transmission to the transmitter.

Applicant's independent claim 38 recites, *inter alia*, a method of determining feedback in a communication system with a structure as defined in the specification (pages 5 – 9) including determining at the receiving apparatus for which data entities of the received data feedback should be provided, wherein said determining is based on (i) a decision which data entities are required and which data entities are optional to satisfy a quality of service (QoS) requirement, and (ii) the hierarchical parts of the respective multi-level modulation symbols that correspond to data entities required to satisfy the QoS requirement, and transmitting said feedback for only those data entities for which it has been determined that said feedback should be provided from the receiving apparatus to the transmitting apparatus to thereby satisfy said QoS requirement. Applicant's independent claims 38, 54, 56, 59, 60 and 61 comprise a particular combination of elements, which is neither taught nor suggested by the prior art.

Accordingly, applicant's claims are allowed for these reasons and for the reasons recited by applicant in the amendment filed on 9/16/2010.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to UN C. CHO whose telephone number is (571)272-7919. The examiner can normally be reached on 9:00AM - 6:00PM.
